Centennial Arts Academy

STUDENT CODE OF CONDUCT
GAINESVILLE CITY SCHOOL SYSTEM
Elementary Level
2021-2022

FOREWORD

It is the purpose of the Gainesville City School System (GCSS) to operate each school in a manner that will provide an orderly process of education that ensures the welfare and safety of all students who attend the schools within the district. In accordance with that purpose, the Board of Education has adopted a policy that requires all schools to provide codes of conduct. These require students to conduct themselves at all times in a manner that facilitates an optimum learning environment for themselves and others.

GCSS has adopted this Code to support the creation of a safe learning environment for all members of the school community. The purpose of this Code is to state clearly our standards for acceptable conduct of students. The Code also explains the consequences for not meeting these standards of conduct. This Code establishes a strict policy for conduct that endangers the safety of the schools and/or disrupts the educational experience for other students. GCSS does not permit corporal punishment.

The Code also sets forth the discipline procedures for students who have committed violations of the Code. This Code is not meant to be a contract between the District and the students, and may be amended at any time. It is a place for GCSS to explain certain policies applicable to students.

We expect students to:

- Respect each other
- Respect school district employees
- Obey student behavior policies adopted by the Board of Education
- Obey rules established by individual schools

The school's primary goal is to educate, not to punish; however, when the behavior of an individual student comes in conflict with the rights of others, corrective actions may be necessary for the benefit of that individual and the school as a whole. Accordingly, students shall be governed by the policies, regulations and rules set forth in this Code of Conduct.

The Code of Conduct is effective during the following times and in the following places:

- At bus stop
- At school or on school property at any time
- Off school property at any school activity, function or event and while traveling to and from such events
- On vehicles provided for student transportation by the school system

In addition, students may be disciplined for felonious conduct off campus, which may pose a threat to the school's learning environment or the safety of students and employees.

Parents/guardians are encouraged to become familiar with the Code of Conduct and to be supportive of it in their daily communication with their children and others in the community. We ask for your cooperation in sharing this responsibility for maintaining a proper learning environment.

AUTHORITY OF THE PRINCIPAL

The principal is the designated leader of the school and, in concert with the staff, is responsible for the orderly operation of the school. In cases of disruptive, disorderly or dangerous conduct not covered in this Code, the principal may undertake corrective measures, which he or she believes to be in the best interest of the student, and the school provided any such action does not violate school board policy or procedures.

Students Should:

Participate fully in the learning process. Students need to report to school and class on time, attend all regularly scheduled classes, remain in class until excused or dismissed, pay attention to instruction, complete assignments to the best of their ability, and ask for help when needed.

Avoid behavior that impairs their own or other students' educational achievement. Students should know and avoid the behaviors prohibited by this code, take care of books and other instructional materials, and cooperate with others.

Show respect for the knowledge and authority of teachers, administrators, and other school employees.

Students must obey reasonable directions, use acceptable and courteous language, avoid being rude and follow school rules and procedures.

Recognize and respect the rights of other students and adults. All students should show concern for and encouragement of educational achievements and participation of others in curricular and extra-curricular activities.

Disciplinary action for violations of expected behaviors will include appropriate hearings and reviews. In all cases, the rights of individuals will be ensured and protected. The Gainesville City School System will make every reasonable effort to administer the discipline code consistently in all schools. When applicable, individualized plans (i.e. IEP, 504, and SST) will be reviewed for appropriate consequences.

ATTENDANCE REQUIREMENTS – POLICY JBD

The Gainesville City Board of Education subscribes to a policy of good attendance and punctuality as essential to the academic performance for all students. It is the policy of the Gainesville City School Board to encourage students to attend school regularly and participate in all class activities physically or virtually on a daily basis.

The Gainesville City School Board believes that students should arrive at school on time and be in class on time each day. In order to foster regular attendance, the Gainesville City School System shall comply with all requirements of state law, State Board of Education rule, and the Student Attendance Protocol developed by Gainesville City Schools' Student Attendance Protocol Committee. The Board strongly believes that every day at school is important and that no student should be absent except for extraordinary reasons and encourages students and their parents to assume responsibility for being punctual and regular in attendance.

The Gainesville City School Systems attendance requirements are as follows:

- The parents/guardians/other persons having charge of any child between the child's sixth and sixteenth birthdays are subject to "compulsory attendance". That is, they are required by law to enroll and send such child to a public or private school or utilize a home study program. Students assigned to alternative schools are subject to this requirement as well.
- All K-12 children enrolled for 20 school days or more in a public school of this state prior to their seventh birthday become subject to compulsory attendance.

Georgia law, O.C.G.A. § 20-2-690.1, states that a person who fails to send a child to school may be charged with a misdemeanor. For each violation of the statute, a court may subject this person to a fine not less than \$25.00 and not greater than \$100.00, imprisonment not to exceed thirty (30) days, community service, or any combination of such penalties. Each day's absence after the school notifies the person of five unexcused days of absence shall be considered a separate offense of the statute.

For the purposes of this Policy, a child between his/her sixth and sixteenth birthdays shall be considered truant if the child has more than five days of unexcused absences in a school year. A truant student with more than ten days of unexcused absences within a school year may be identified as a child in need of services in accordance with O.C.G.A. § 15-11-380.

It is the policy of the Board to excuse students from school for the following reasons: Written justification for any absence must be submitted by the student.

1. Personal illness or attendance in school that endangers a student's health or the health of others
2. A serious illness or death in a student's immediate family necessitating absence from school
3. The observance of religious holidays, necessitating absence from school.
4. Conditions rendering attendance impossible or hazardous to student health or safety.
5. A court order or an order by a governmental agency, including pre-induction physical examinations for service in the armed forces, mandating absence from school
6. Visiting with a U.S. military parent prior to or on leave from overseas deployment (limited to 5 days per school year)
7. Any emergency or set of circumstances which, in the judgment of a building administrator, constitutes a just and sufficient cause for an excused absence from school
8. Students shall be counted present when they are serving as Pages of the Georgia General Assembly.

9. Students in foster care shall be counted present when they attend court proceedings relating to their foster care.
10. Students who are designated as hospitalized/homebound through the formal process are counted as present.
11. Students shall be counted present when they are serving on jury duty.

The principal may in certain circumstances require students to present appropriate medical or other documentation upon return to school for the purpose of validating that absences are excused.

Students are expected and permitted to make up all work for credit missed due to absences. This shall include all assignments, quizzes, and tests.

Tardiness - Students are expected to arrive at school on time. Students who are tardy for school must go to the school office to sign-in before going to class.

This portal allows parents/guardians the ability to view all of their children with one login name and password.

AWARDING UNITS/TRANSFERRING CREDIT – POLICY JBC-4

Elementary and middle school students transferring from home study programs, non-accredited schools or non-traditional educational centers will be placed at the appropriate grade level in a probationary placement for one 9-week grading period. Student placement may also be based on satisfactory performance on standardized or locally developed tests focusing on grade level or subject area.

- Local tests and pre/post tests, may be utilized in order to provide additional information concerning student placement.
- Upon examination of test results and classroom performance, the final placement decision rests with the Principal and/or placement committee.

BUS CONDUCT

Transportation service for students is a privilege, not a right. Students will be allowed to ride Gainesville City School's buses as long as they remain a student in good standing for that purpose. A student in good standing is one who follows the rules. Students are responsible for maintaining good behavior while riding the school bus. Parents should remind their children to follow all the rules listed below and to be a person of responsible character while riding to and from school, on field trips, or any other school-sponsored trip. The school bus is considered school property; therefore, all rules that apply to school building also apply to school buses.

1. Students are to be at their designated stop in the morning at least five minutes before the bus is to arrive.
2. Students are expected to get off at their designated stop unless they have a note from a parent or legal Guardian stating that they have permission to exit at a different stop.
3. Parents must send a note to the school or call the school by 1:00 PM to make changes in afternoon bus transportation for their child.
4. **BUS BOARDING PASSES** – Students must have a bus boarding pass that is completed by the school in order to ride a bus other than their normal bus. Students must hand the bus boarding pass to the bus driver in order to ride a bus that is not their normal bus.

17. Students who must cross the road after being discharged from the school bus must cross in front of the stopped school bus.

These tapes are held for one school day only and then are taped over. Videotapes will be reviewed only by district staff.

Because safety on the school bus affects many other students, the administration reserves the right to invoke a penalty more severe than listed for the offense. This may include behaviors that threaten the safety of anyone else in the bus. Violations of the School Bus Rider's Rules will be dealt with as follows **for grades PK-12**:

First Offense- The student is reported to the principal by the bus driver. The principal talks with the student and send written communication to the parent/legal guardian to be signed and returned to the principal. A copy of this communication is sent to the bus driver.

Second Offense-The principal again talks with student and sends written communication to the parent/legal guardian. The communication in part will warn the parent/legal guardian that another offense will deny the student of bus riding privileges from one to five days (depending upon the nature of the offense). The communication is to be signed by the parent/legal guardian and returned to the principal. A copy is sent to the bus driver.

Third Offense- The parent/legal guardian is notified in writing that the bus riding privileges are suspended (from one day to ten days). The communication is to be signed by the parent/legal guardian and returned to the principal. A copy is sent to the bus driver.

ADDITIONAL GUIDELINES

Parents/guardians are responsible for providing transportation for students suspended from riding the bus.

Georgia law also states that before any chronic disciplinary problem student is permitted to return to school from a suspension or expulsion, the school shall request by telephone call and by mail, at least one parent/guardian to schedule and attend a conference to devise a disciplinary and behavioral correction plan. The law allows a local board of education to petition the juvenile court to require a parent/guardian to attend a school conference. If the court finds that the parent /guardian has willfully and unreasonably failed to attend a conference requested by the principal pursuant to the laws cited above, the court may order the parent/guardian to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior, or both. The standards should be designed also to encourage students to respect each other and school district employees, to motivate students to obey student behavior policies adopted by this board and to obey student behavior rules established at each school within this school district
2. Student support processes designed to consider, as appropriate in light of the severity of the behavioral problem, support services available at each school, the school system and other public entities or community organizations which may assist students to address behavioral problems;
3. Progressive discipline processes designed to create the expectation that the degree of discipline imposed by each school will be in proportion to the severity of the behavior of a particular student, the previous discipline history of the student and other relevant factors, while ensuring that each student receives the due process mandated by federal and state law;
4. Parental involvement processes designed to enable parents, guardians, teachers and school administrators to work together to improve and enhance student behavior and academic performance. A teacher shall have the authority, consistent with board policy, to manage his or her classroom, discipline students, and refer a student to the principal or his designee to maintain discipline in the classroom. Any teacher who has knowledge that a student has exhibited behavior which violates the student code of conduct and repeatedly or substantially interferes with the teachers ability to communicate effectively with the students in his/her class or with the ability of such student's classmates to learn shall file a report of such behavior with the principal or his designee. The principal and teacher shall thereafter follow the procedures set forth in Georgia law, specifically O.C.G.A. § 20-2-737-738.

The Superintendent and/or his designee shall develop procedures as necessary for implementation of this policy and this state law.

PBIS and the Student Code of Conduct

Gainesville City School System utilizes a **progressive discipline** approach when dealing with student behaviors. The Positive Behavioral Intervention Support (PBIS) framework is implemented at all Gainesville City school buildings. Positive Behavioral Interventions and Supports (PBIS) is an evidence-based framework that helps schools design effective environments and supports that, when implemented with fidelity, increase teaching and learning opportunities for all students.

A student code of conduct is intended to teach students that there are consequences for violating behavior norms while under the supervision of educators. A student code of conduct, among other things, publishes a list of unacceptable student behaviors that interfere with the learning environment and the successful operation of the school day. A corresponding and progressive list of possible consequences is defined within a student code of conduct with the intent to promote a safe learning environment.

Major offenses including, but not limited to, drug and weapon offenses can lead to schools being named as an Unsafe School according to the provisions of State Board of Education Rule 160-4-8-.16 Unsafe School Choice Option.

Parents and police will be notified in every instance where the law is violated.

Minor acts of misconduct are those that interfere with orderly school procedures, school functions, extracurricular programs, approved transportation, or the student's learning process. Students may be disciplined by the professional staff member involved or may be referred directly to the administration.

Penalties for minor acts of misconduct include, but are not limited to, the following:

- Warning
- Conference with student
- Alternative seating
- Loss of recess or other free-choice activity
- Time out in classroom
- Time out in another classroom
- Isolation during lunch

- One day in-school suspension (ISS)
- Participation in the cleaning/repair of any damage caused to the school-related environment
- Detention
- Any other disciplinary technique that positively promotes the student Code of Conduct and desired character trait(s)

Intermediate acts of misconduct require administrative intervention. These acts include, but are not limited to, repeated, unrelated acts of minor misconduct and misbehavior directed against persons or property, but which do not seriously endanger the health, safety or well-being of others. Consideration of necessary behavior support services should be given if not already provided. Penalties for intermediate acts of misconduct include but are not limited to the following:

- Student participation in conference with parent/guardian, teacher, and/or administrator
- Restriction from school programs or other activities
- Time out in administrator's office

- Change in Academic Setting
- Any other disciplinary technique that positively promotes the student code of conduct and desired character trait(s)

Serious acts of misconduct require administrative intervention and may require the use of outside agencies and/or law enforcement. These offenses include, but are not limited to, repeated misbehavior that is similar in nature, serious

disruption of the school environment, threats to health, safety, or well-being of others, or property. Because serious acts of misconduct may result in placement in a separate alternative educational program or expulsion, students have the benefit of due process, such as the Disciplinary Tribunal, the procedural safeguards and other requirements identified in the 1997 Federal Individuals with Disabilities Education Act and the Georgia Board of Education's Special Education Rules.

Penalties for serious acts of misconduct include, but are not limited to, the following:

- Restriction from school programs and/or other activities
- Out-of-school suspension for up to ten days
- Participation in the cleaning/repair of any damage caused to the school-related environment
- Financial restitution for the repair of any damage caused to the school-related environment
- Change in Academic Setting
- Placement in a separate alternative educational program

DRESS CODE FOR STUDENTS

We, the Gainesville City District family, aim high to create a warm and inviting environment. We want every reflection of our brand to be consistent with our tradition of excellence. As a member of this family, your appearance is a reflection of the GCSS brand and how we show up collectively is important to our community. At the same time, we want to build a district where individuality, empowerment, and inclusion are nurtured. With this balance in mind, we have updated our dress code.

Our dress code is generally based on what we like to think of as “school appropriate.” All clothing must fit modestly and provide appropriate coverage and length. Shoes should be safe for the school environment.

For further clarity it is helpful to provide examples on a “we don’t wear list.” On this list are examples of the things we don’t wear.

We Don’t Wear...

- pajama attire, sleepwear, or bedroom footwear.
- spaghetti straps, backless, strapless, or tank tops.
- clothing that allows the exposure of our midriff or waist.
- hats, caps, or hoods inside.
- clothing in a way that reveals underwear.
- clothing that fits immodestly.
- clothing that causes distractions to our mission (examples: clothing with inappropriate language, pictures or symbols; clothing depicting gangs, drugs, alcohol, or tobacco; clothing that advocates/promote violence).

The school administration has the discretion to render judgments regarding what is and what is not appropriate. The administration may, if necessary, waive these policy restrictions for religious and/or medical situations. Principals and assistant principals will determine what happens when a student does not comply with our dress code. A student may be sent home to dress appropriately or may be required to wear a change of clothing provided by the school or parents/guardians.

Electronic Devices Use Policy- POLICY JCDAF

Use of personal electronic devices and other electronic media during the regular school day must be in support of and consistent with the vision, mission, and goals established by the Gainesville City Board of Education. All personal electronic devices on Board property or used during a school sponsored activity are subject to the Technology Resources Acceptable Use Policy IFBG. Students may be permitted to use their personal electronic devices for instructional purposes and to access the District provided network/internet. Students must follow all directions given by school personnel in regards to using personal devices.

Only a student whose parent or legal guardian has completed and returned a “Permission Form for Personal Electronic Devices” shall be allowed to use an electronic device on Board property. The form is to be completed yearly.

Students shall be personally and solely responsible for the maintenance, support, and security of their personal electronic device. All personal laptops are required to have updated virus protection and the latest security patches to the operating system and browser prior to connecting to the network. Neither the district nor staff shall assume responsibility or liability for the theft, loss, or damage to personal devices, nor is responsibility for the unauthorized use of any device assumed.

While on Board property, students are not permitted to use their own personal Wi-Fi, data plans or other types of Internet access provided by Internet service providers/carriers that is not provided by the Board of Education. All Internet access will be filtered.

No student shall photograph, videotape, record, or reproduce, via any audio or video means, another student or staff

member on Board property without the expressed prior permission of a teacher or administrator. Students shall not disrupt instruction with ringtones, music, or sound effects.

No student shall have a personal electronic device in their possession during district-wide assessments or state testing. Personal devices must be turned off completely (not simply on silent or vibrate mode) and turned into a teacher or testing proctor.

Electronic resources provided by the district may be limited. When demand for these resources exceeds the available capacity, priorities for their use will be established and enforced. Authorized staff members may set and change the priorities for these resources. The highest priority for use district electronic resources will include uses that support the educational and business mission of the school system, purchased services, and online testing.

There can be no expectation that electrical power will be made available for student-owned devices. Therefore, it is recommended that personal technology is charged prior to school. Printing from personal devices will not be available at school.

Students shall be permitted to use electronic devices during the operation of a school bus, including but not limited to cellular phones, MP3 players, and iPods, provided that the safety of staff members and other bus riders is not jeopardized.

School staff may confiscate personal electronic devices and school administrators may search the device if inappropriate activities are suspected.

Students who do not comply with this regulation or any supporting directives related to the use of personal electronic devices will be subject to appropriate disciplinary action. The school district reserves the right to change or deny the use of personal electronic devices of students who do not comply with procedures.

- Any student, parent, or other person who believes he or she or any student has been discriminated against or harassed in violation of this policy must make a complaint in accordance with the procedures outlined below.

COMPLAINTS PROCEDURE

Complaints made to the School System regarding alleged discrimination or harassment on the basis of race, color or national origin in violation of Title VI, on the basis of sex in violation of Title IX or on the basis of disability in violation of Section 504 of the Rehabilitation Act of 1973 or the Americans With Disabilities Act will be processed in accordance with the following procedure:

If the report or complaint is oral, either the coordinator or school principal to whom the report or complaint is made shall promptly prepare a memorandum or written statement of the complaint as made to him or her by the complainant and shall have the complainant read and sign the memorandum or statement if it accurately reflects the

complaint made. If the complaint is made to a school principal, he or she shall be responsible for notifying the appropriate coordinator of the complaint. Reports or complaints other than those described in 1b shall be handled in accordance with the procedures starting in 2.

b. Any person with a complaint or report alleging sexual harassment as defined in Policy JCAC (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sexual harassment), may report, in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator on the District's website, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such reports will be handled in accordance with the procedures and grievance process specified in Policy JCAC.

3. The coordinator or his or her designee shall have fifteen work days to gather all information relevant to the complaint made, review the information, determine the facts relating to the complaint, review the action requested by the complainant, and attempt to resolve the complaint with the complainant and any other persons involved. If the complaint is not resolved at the conclusion of this fifteen-day period or if the complainant is not satisfied with the resolution of the complaint, the complainant shall have the right, within five work days of receiving a copy of the written response, to have the complaint referred to the Superintendent of Schools. If the alleged offending individual is the Superintendent, the complainant may have the complaint referred to the Board of Education, rather than the Superintendent.

5. The Superintendent shall have fifteen workdays to review the complaint and the response of the coordinator or designee and attempt to resolve the complaint. The Superintendent shall furnish to the complainant a written response setting forth either his or her approval of the action recommended by the coordinator or designee or the action to be taken by the system in response to the complaint in lieu of that recommended by the coordinator or designee and the time frame in which such action shall be taken.

6. This policy is not intended to deprive any student or parent of any right they may have to file a grievance pursuant to any other policy of the local Board of Education, or to contact the Office of Civil Rights or other appropriate state or federal agency with regard to any allegations that the School District has violated the statutes described above. The school system shall be responsible for distributing and disseminating information relevant to this policy and procedure to students, applicants for employment and employees through appropriate procedures.

7. The School District shall be responsible for distributing and disseminating information relevant to this policy and procedure to students, parents and employees through appropriate procedures.

8. No reprisal shall occur as a result of reporting unlawful discrimination or harassment under this policy, and any attempt to retaliate against a complainant shall be disciplined as is appropriate.

9. The confidentiality of any individual making a complaint or report in accordance with this policy, to the extent it is reasonably possible, shall be protected, although the discovery of the truth and the elimination of unlawful harassment shall be the overriding consideration.

HARASSMENT – POLICY JCAC

The intent of this policy is to comply with the Title IX federal regulations concerning sexual harassment. To the extent that additional requirements are specified in federal law or regulations, the District shall comply with such requirements.

DEFINITIONS

Actual knowledge means notice of sexual harassment or allegations of sexual harassment to the District's Title IX Coordinator or to any official or employee of the District. This notice requirement is not met when the only District official or employee with actual knowledge is the respondent.

Complainant means an individual who is alleged to be the victim of conduct that could constitute sexual harassment. If the complainant is under the age of 18, the parent or legal guardian can file a complaint and act on behalf of the student.

Days for the purpose of this policy means "school days."

Deliberately indifferent means a response to sexual harassment that is clearly unreasonable in light of the known circumstances.

Formal complaint means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the District investigate the allegation of sexual harassment. At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in a District education program or activity. A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by electronic mail, by using the contact information listed for the Title IX Coordinator in the District's nondiscrimination notice posted on its website. As used in this policy, the phrase "document filed by a complainant" means a document or electronic submission (such as by electronic mail or through an online portal provided by the District) that contains the complainant's physical or digital signature, or otherwise indicates that the complainant is

the person filing the formal complaint. Where the Title IX Coordinator signs a formal complaint, the Title IX Coordinator is not a complainant or otherwise a party under this policy.

Respondent means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

1. An employee of the District conditioning the provision of a District aid, benefit, or service on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's education program or activity; or
3. "Sexual assault"- an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation; or "Dating Violence"- sex-based violence committed by a person-
 - a. who is or has been in a social relationship of a romantic or intimate nature with the victim; and
 - b. where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - (i) The length of the relationship.
 - (ii) The type of relationship.
 - (iii) The frequency of interaction between the persons involved in the relationship; or "Domestic Violence"- sex-based violence which includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction; or "Sex-based Stalking" - engaging in a course of conduct directed at a specific person that would cause a reasonable person to-
 - (A) fear for his or her safety or the safety of others; or
 - (B) suffer substantial emotional distress.

Supportive measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the District's educational environment, or deter sexual harassment. The District shall presume that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process. The grievance process will be followed before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. The District shall maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the District to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

NONDISCRIMINATION POLICY

It is the policy of the Board of Education to comply fully with the requirements of state law, Title IX and its accompanying regulations.

The School District prohibits discrimination based on sex and sexual harassment of students by other students, employees, volunteers or others over whom the District has authority in any District education program or activity. Education program or activity includes locations, events, or circumstances over which the District exercises substantial control over both the respondent and the context in which the sexual harassment occurs.

The District shall respond promptly in a manner that is not deliberately indifferent when it has actual knowledge of sexual harassment against a person in an education program or activity.

The District shall require that any individual designated and authorized as a Title IX Coordinator, investigator, decision-maker, or any person designated to facilitate an informal resolution process, not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. The District shall ensure that Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, will receive training on the definition of sexual harassment, the scope of the District's education program or activity, how to conduct an investigation and grievance process including questioning, appeals, and informal resolution processes, as applicable, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. The District shall ensure that decision-makers receive training on any technology to be used during questioning, and on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. The District also shall ensure that investigators receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence. Any materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, shall not rely on sex stereotypes and shall promote impartial investigations and adjudications of formal complaints of sexual harassment.

Reports or complaints made to the School District regarding alleged sexual harassment in violation of Title IX shall be processed in accordance with the following process:

GRIEVANCE PROCESS

1. Reports or complaints may be verbal or written and may be made at any time (including during non-business hours), in person, by mail, by telephone, or by electronic mail using the contact information posted on the school and/or district website.
2. Any student, employee, parent or other person wishing to report or file a complaint alleging a violation as described above shall promptly notify either the principal or counselor at his/her school or the Title IX Coordinator designated and authorized by the District. Any employee who receives information from a student alleging sexual harassment shall report it to the principal or Title IX Coordinator. If the alleged offending individual is the principal, the report or complaint should be made by the complainant to the Title IX Coordinator.
3. The Title IX Coordinator shall promptly contact the complainant to discuss the availability of supportive measures as defined in this policy, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint. The District shall treat complainants and respondents equitably by following this grievance process before punishing the respondent or providing remedies to the complainant. Remedies will be designed to restore or preserve equal access to the District's education program or activity. Such remedies may include the same individualized

services described as “supportive measures.” However, remedies need not be non-disciplinary or non-punitive and need not avoid burdening the respondent.

4. Formal Complaint:

Upon receipt of a formal complaint, the District shall within 10 days provide the following written notice to the parties who are known:

(A) Notice of the District’s grievance process;

(B) Notice of the allegations potentially constituting sexual harassment, including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known. The written notice shall include a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process. The written notice shall inform the parties that they may have an advisor of their choice, who may be, but is not required to be, an attorney, and may inspect and review evidence. The written notice shall inform the parties of any provision in the code of conduct that prohibits knowingly making false statements or knowingly submitting false information during the grievance process. The notice shall describe the range of or list the possible disciplinary sanctions and remedies that the District may implement following any determination of responsibility.

(C) If, in the course of an investigation, the District decides to investigate allegations about the complainant or respondent that are not included in the notice provided pursuant to paragraph (4)(B), the District shall provide notice of the additional allegations to the parties whose identities are known.

5. Dismissal of a formal complaint.

The District shall investigate the allegations in a formal complaint. If the conduct alleged in the formal complaint would not constitute sexual harassment as defined herein even if proved or did not occur in the District’s education program or activity or in the United States, then the District shall dismiss the formal complaint with regard to that conduct for purposes of sexual harassment under Title IX; such a dismissal does not preclude action under another provision of the District’s code of conduct.

(A) The District may dismiss the formal complaint or any allegations therein, if at any time during the investigation: A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein; the respondent is no longer enrolled or employed by the District; or specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

(B) Upon a dismissal required or permitted pursuant to paragraph (5), the District shall promptly send written notice of and reason(s) for the dismissal simultaneously to the parties.

6. Consolidation of formal complaints.

The District may consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances. Where a grievance process involves more than one complainant or more than one respondent, references to the singular “party,” “complainant,” or “respondent” include the plural, as applicable.

7. Investigation of a formal complaint.

After providing written notice to the parties of the receipt of a formal complaint, the District shall have 15 days to investigate. When investigating a formal complaint and throughout the grievance process, the District shall—

(A) Assume the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility and not place such burdens on the parties provided that the District cannot access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the District obtains that party's voluntary, written consent to do so;

(B) Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;

(C) Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;

(D) Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding; however, the District may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties;

(E) Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all investigative interviews or other meetings, with sufficient time for the party to prepare to participate;

(F) Provide both parties an equal opportunity to inspect and review any non-privileged evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint, including the evidence upon which the District does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. Prior to completion of the investigative report, the District shall send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties shall have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report. The District shall make all such evidence subject to the parties' inspection and review available at any meeting to give each party equal opportunity to refer to such evidence during the meeting, including for purposes of cross-examination; and

(G) Create within 5 days an investigative report that fairly summarizes relevant evidence, and at least 10 days prior to the determination regarding responsibility, send to each party and the party's advisor, if any, the investigative report in an electronic format or a hard copy, for their review and written response.

(H) If at any point in the investigation of reported sexual harassment of a student, the investigator determines that the reported harassment should more properly be termed abuse, the reported incident or situation shall be referred pursuant to the established protocol for child abuse investigation. Reported

sexual harassment determined not to be sexual harassment as defined under Title IX may be investigated in accordance with Policy JAA.

8. Questions.

After the District has sent the investigative report to the parties and before reaching a determination regarding responsibility, the decision-maker(s) shall afford a 10 day period for each party to have the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. The District shall not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege. The decision-maker(s) shall explain to the party proposing the questions any decision to exclude a question as not relevant.

9. Determination regarding responsibility.

The decision-maker(s), who cannot be the same person(s) as the Title IX Coordinator or the investigator(s), shall, within 10 days of the conclusion of the question and answer period, issue a written determination regarding responsibility. To reach this determination, the District shall apply the preponderance of the evidence standard of evidence to formal complaints against students, to formal complaints against employees and to all complaints of sexual harassment.

The written determination shall include—

- (A) Identification of the allegations potentially constituting sexual harassment as defined in this policy;
- (B) A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
- (C) Findings of fact supporting the determination;
- (D) Conclusions regarding the application of the District's code of conduct to the facts;
- (E) A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the District imposes on the respondent, and whether remedies designed to restore or preserve equal access to the District's education program or activity will be provided by the District to the complainant; and
- (F) The District's procedures and permissible bases for the complainant and respondent to appeal.
- (G) The District shall provide the written determination to the parties simultaneously. The determination regarding responsibility becomes final either on the date that the District provides the parties with the written determination of the result of the appeal,

if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

(H) The Title IX Coordinator is responsible for effective implementation of any remedies.

10. Appeals.

The District shall offer both parties 10 days after a decision for an appeal from a determination regarding responsibility, and from a District's dismissal of a formal complaint or any allegations therein, on the following bases:

(A) Procedural irregularity that affected the outcome of the matter;

(B) New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and

(C) The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

(D) As to all appeals, the District shall:

(i) Notify the other party in writing when an appeal is filed and implement appeal procedures equally for both parties;

(ii) Ensure that the decision-maker(s) for the appeal is not the same person as the decision-maker(s) that reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator;

(iii) Ensure that the decision-maker(s) for the appeal complies with the training standards set forth in this policy;

(iv) Give both parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;

(v) Issue a written decision describing the result of the appeal and the rationale for the result; and

(vi) Provide the written decision simultaneously to both parties within 10 days of the receipt of the appeal.

11. Informal resolution.

The District shall not require as a condition of enrollment or continuing enrollment or enjoyment of any other right, waiver of the right to an investigation and adjudication of formal complaints of sexual harassment consistent with this policy. Similarly, the District shall not require the parties to participate in an informal resolution process and shall not offer an informal resolution process unless a formal complaint is filed. However, at any time prior to reaching a determination regarding responsibility the District may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and adjudication, provided that the District—

(A) Provides to the parties a written notice disclosing: The allegations, the requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations, provided, however, that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared;

(B) Obtains the parties' voluntary, written consent to the informal resolution process; and

(C) Does not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

12. Recordkeeping.

The District shall maintain for a period of seven years records of—

(A) Each sexual harassment investigation including any determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;

(B) Any appeal and the result therefrom;

(C) Any informal resolution and the result therefrom; and

(D) All materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The District shall make these training materials publicly available on its website, or if the District does not maintain a website, shall make these materials available upon request for inspection by members of the public.

(i) For each response required under the District's process for responding to a sexual harassment formal complaint, the District shall create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the District shall document the basis for its conclusion that its response was not deliberately indifferent, and document that it has taken measures designed to restore or preserve equal access to the District's education program or activity. If the District does not provide a complainant with supportive measures, then the District shall document the reasons why such a response was not clearly unreasonable in light of the known circumstances. The documentation of certain bases or measures does not limit the District in the future from providing additional explanations or detailing additional measures taken.

13. Confidentiality.

The District shall keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by federal or state law or regulations, or to carry out the purposes of Title IX requirements, including the conduct of any investigation or judicial proceeding arising thereunder.

14. Retaliation Prohibited.

(A) No District or person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation or proceeding under Title IX. Intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, constitutes retaliation.

Complaints alleging retaliation may be filed in accordance with the procedures specified in Policy JAA.

(B) The exercise of rights protected under the First Amendment does not constitute retaliation prohibited under subparagraph (a).

(C) Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding under this policy does not constitute retaliation prohibited under subparagraph (a); provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

15. Time Frame.

The District shall allow for the temporary delay of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action. Good cause may include considerations such as the absence of a party, a party's advisor, or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities.

NOTICE:

The District is required by Title IX and its implementing regulations to notify employees, students, parents or legal guardians, applicants for admission and employment, and professional organizations holding professional agreements with the District that the District does not discriminate on the basis of sex in the operation of its education programs or activities, including admissions and employment.

Contact information for the District's Title IX Coordinator is located on its website and in all handbooks or catalogs that the District makes available to employees, students, parents or legal guardians, applicants for admission and employment, and professional organizations holding professional agreements with the District.

Inquiries about Title IX and its implementing regulations may be referred to the District's Title IX Coordinator, to the Assistant Secretary of the U.S. Department of Education, or both.

HOSPITAL/HOMEBOUND SERVICES Rule 160-4-2-.31

Hospital/Homebound (HHB) services are designed to provide continuity of educational services between the classroom and home or hospital for students in Georgia public schools whose medical needs, either physical or psychiatric, do not allow them to attend school for a limited period of time. HHB instruction may be used to supplement the classroom program for students with health impairments whose conditions may interfere with regular school attendance (e.g., students receiving dialysis or radiation/chemotherapy or students with other serious health conditions). Students must be enrolled in a public school in Georgia in order to receive HHB services.

HHB services are not intended to supplant regular school services and are by design temporary. The student must anticipate being absent from school for a minimum of ten consecutive or intermittent school days due to a medical or psychiatric condition. The student's inability to attend school for medical or psychiatric reasons must be certified by the licensed physician or licensed psychiatrist who is currently treating the student for the diagnosis presented.

INTERNET ACCEPTABLE USE POLICY IFBG
--

It is the belief of the Gainesville City Schools that the use of technology for the purpose of information acquisition, retrieval, manipulation, distribution and storage is an important part of preparing students to live in the 21st century. Further, it is believed that a "technology rich" classroom can significantly enhance both the teaching and learning process. This technology includes computer hardware, software, local and wide area networks and access to the Internet. Due to the complex nature of these systems and the magnitude of information available via the Internet, the Gainesville City School System believes guidelines regarding acceptable use are warranted in order to serve the educational needs of students.

It shall be the policy of the Gainesville City School System that the system shall have in continuous operation:

1. A qualifying “technology protection measure,” as that term is defined in Section 1703(b)(1) of the Children’s Internet Protection Act of 2001, i.e. an Internet filter; and
2. Procedures or guidelines developed by the superintendent, administrators and/or other appropriate personnel which provide for monitoring the online activities of users and the use of the chosen technology protection measure to protect against access through such computers to visual depictions that are (i) obscene, (ii) child pornography, or (iii) harmful to minors, as those terms are defined in Section 1703(b)(1) and (2) of the Children’s Internet Protection Act of 2001. Such procedures or guidelines shall be designed to:
3. Monitoring of online activities of users to prevent, to the extent practicable, access by minors to inappropriate matter on the Internet and the World Wide Web;
4. Methods for educating minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber-bullying awareness and response as required by the Children’s Internet Protection Act;
5. Prevention of unauthorized access, including so-called “hacking,” and other unauthorized activities by minors online;
6. Prevention of the unauthorized disclosure, use and dissemination of personal identification information regarding minors in accordance with Federal FERPA regulations; and
7. Restriction of minors’ access to materials “harmful to minors,” as that term is defined in Section 1703(b)(2) of the Children’s Internet Protection Act of 2001.

The district’s technology resources are provided for educational purposes that promote and are consistent with the instructional goals of the Gainesville City School System. Use of computers and network resources outside the scope of this educational purpose is prohibited. Students and employees accessing network services or any school computer shall comply with the district’s acceptable use guidelines. The district reserves the right to monitor, access, and disclose to appropriate parties the contents of any user’s files, activities, or communications.

It must also be understood that the Internet is a global, fluid community, which remains unregulated. While it is an extremely valuable tool for educational research, there are sections that are not commensurate with community, school, or family standards. It is the belief of the Gainesville City School System that the Internet’s advantages far outweigh its disadvantages. The Gainesville City Schools Technology Department will provide an Internet screening system, or filter, which blocks access to a large percentage of inappropriate sites. It should not be assumed, however, that users are completely prevented from accessing inappropriate materials or from sending or receiving objectionable communications.

Additionally, access to the Internet and computer resources is a privilege, not a right. Therefore, violation of this policy may result in loss of school-provided access to the Internet. Additional disciplinary action may be determined in keeping with existing procedures and practices. When and where applicable, law enforcement agencies may be involved.

The Superintendent and administrative staff shall develop rules for implementing and enforcing this policy and include them in the student handbook.

Teacher Web Pages and Internet Resources

The Gainesville City School System supports and provides training to teachers on creating classroom websites for expanding the learning environment for their students.

When using the Internet for class activities, teachers will:

- o Select material that is appropriate in light of the age of the students and that is relevant to the course objectives.
- o Preview the materials and sites they require students to access in order to determine the appropriateness of the material contained on or accessed through the site.
- o Provide guidelines and lists of resources to assist their students in channeling their research activities

- effectively and properly.
- o Assist their students in developing the skills to ascertain the truthfulness of information, distinguish fact from opinion, and engage in discussions about controversial issues while demonstrating tolerance and respect for those who hold divergent views.

PROMOTION AND RETENTION – POLICY IHE

The Gainesville City Board of Education endorses the concept that a student's success in school depends to a great extent upon the cooperation between home and school. The Board believes its primary function is to provide students a quality educational opportunity. It is the responsibility of the school, home, community and the individual learner to take full advantage of that educational opportunity. Although the Gainesville City Board of Education strongly believes that students should continue to advance to the next grade level annually, promotion is based primarily on student achievement and is not an automatic process. It is recognized that under certain circumstances retention or placement may be required for some students.

1. Definitions consistent with those contained in State Board Rule 160-4-2.11 Promotion, Placement and Retention.
2. Students shall be tested in accordance with requirements specified in State Board Rule 160-3-1-.07 Testing

Programs-Student Assessment.

3. The decision to retain a student in grade K, 1, 2, 4, 6, or 7 (and for students in grades 3, 5, and 8 in years when reliance on state-adopted assessments has been waived) shall be made by a school level committee appointed by the principal and shall be based on the student's achievement with consideration of state-mandated assessments, attendance, ability, age, motivation and development. Parents will be invited for a conference regarding the decision to retain their student.
4. The parent/guardian or the teacher(s) may appeal the decision to retain a student. A Placement Committee, composed of the parent or guardian, the teacher(s), and the principal or designee, will hear appeals. The Placement Committee will review the overall academic achievement of the student in light of the performance on standardized assessments and/or classroom measures. The decision to place students in the next grade in response to an appeal must be made unanimously by the Placement Committee.

SCHOOL SAFETY

Asbestos Management Plan During the spring of 1997 an asbestos inspection of Gainesville City Schools took place through the combined efforts of Pioneer RESA and the Gainesville City School System. Based on this inspection, a management plan was written and submitted to the State Department of Education. This plan will be available for public inspection at the superintendent's office. It contains the following:

- 1) Location, amounts and types of asbestos contained materials in all schools and support buildings;*
- 2) Response actions to the asbestos contained materials selected by the City School System;*
- 3) Plans for re-inspection, periodic surveillance and operation and maintenance programs; and*
- 4) Public notification procedures. Anyone interested in reviewing this plan, please contact the Gainesville City School Superintendent's office at 770-536-5272.*

Disruption of Public Schools (O.C.G.A. 20-2-1181) It shall be unlawful for any person to knowingly, intentionally, or recklessly disrupt or interfere with the operation of any public school, public school bus, or public school bus stop as designated by local school boards of education. Any person violating this Code section shall be guilty of a misdemeanor of a high and aggravated nature.

EMERGENCY CLOSINGS - In the event of inclement weather that would prevent the safe transportation of students to the schools or any other emergency situation that would affect the safety or well-being of students, or otherwise make it impractical or impossible for the normal operation of school, the superintendent, in collaboration with the board of education, will close the schools until said emergency condition no longer exists.

In the case of sudden change of weather conditions, the safety of students shall be the number one priority. Decisions concerning the early or late dismissal of students will be determined by the severity of the weather conditions and surrounding circumstances. If it is determined that students will be dismissed other than at the regular time of dismissal, all efforts will be made to contact the local media. The school system requests parents stay tuned to local radio and television stations, phone communication from the school/district, and electronic communication via the GCSS webpage and "Have You Heard Newsletter" during inclement weather.

Emergency Preparedness Plan/Emergency Drills The Georgia Emergency Management Agency reviews and approves the school system's comprehensive School Safety Plan and each school's Emergency Preparedness Plan. These plans are coordinated with county, state, and federal emergency plans.

Fire/evacuation drills will be held on a monthly basis. In addition, drills for severe weather, lockdown of the school, and bus evacuation will be held at least once each year. Parents/guardians should remind their children that during emergency drill students must respond quietly and quickly and must follow the direction given by their teachers and administrators.

Failure to Leave Campus (O.C.G.A. 16-22-35) Any person who fails to leave the premises when requested to leave any school property and/or returns to any school property after instructed by school staff or law enforcement to leave the property, they are considered trespassing and faces criminal prosecution of a misdemeanor of a high and aggravated nature.

Loitering on School Property (O.C.G.A. 20-2-1180) It is unlawful for any person to remain within the school safety zone when that person does not have a legitimate cause or need to be present thereon. Students are not allowed to enter the premises of a school other than his/her school unless prior permission is received from an administrator of the school to be visited or unless the school is hosting a school-related function, such as an academic or athletic activity. A student may not enter or remain in any school building on weekends or after school hours without authorization or permission.

School Resource Officer (SRO) The Gainesville City Board of Education and Gainesville Police Department

employ school resource officers jointly. Their main purpose is to assist in providing a safe and secure learning environment for students, teachers and staff. They are an excellent resource for teachers, parents/guardians and students in dealing with individual problems or questions with respect to delinquency prevention and the law. Consistent with board policy and legal requirements, school resource officers also provide law enforcement support when needed.

SCHOOL STORE

The school store operates each morning from 7:00 AM to 7:20 AM and carries such items as pencils, crayons, glue, and tablets.

SEARCH OF A STUDENT BY AUTHORITIES

School officials may search a student if there is reasonable suspicion that the student is in possession of an item that is illegal or against school rules. Student book-bags, school lockers, desks, and any other school property, are subject to inspection and search by school authorities at any time without further notice to students or parents. Students are required to cooperate if asked to open backpacks or lockers. Metal detectors and drug or weapon sniffing dogs may be utilized at school or at any school function, including activities that occur outside of school hours or off the school campus, at the discretion of administrators.

SECTION 504

Any student or parent or guardian (“grievant”) may request an impartial hearing due to the school system’s actions or inactions regarding your child’s identification, evaluation, or educational placement under Section 504. Requests for an impartial hearing must be in writing to the school system’s Section 504 Coordinator; however, a grievant’s failure to request a hearing in writing does not alleviate the school system’s obligation to provide an impartial hearing if the grievant orally requests an impartial hearing through the school system’s Section 504 Coordinator.

The school system’s Section 504 Coordinator will assist the grievant in completing the written Request for Hearing. The Section 504 Coordinator may be contacted through the school system’s central office located at 508 Oak Street. Copies of the 504 Procedural Safeguards and Notice of Rights of Students and Parents Under Section 504 may be found at the system website or may be picked up at the central office or at any of the school offices.

STUDENT ILLNESS/INJURY - The main reasons for keeping your student home from school are he/she is too sick to participate comfortably at school or might spread a contagious disease to other students. If your student has been diagnosed with a contagious disease, please contact the clinic so other student’s parents and school staff may be alerted of the symptoms.

The school nurse administers medication only after a signed parent/physician form is completed and filed with the school nurse.

STUDENT RECORDS – POLICY JR

It is the policy of Gainesville City Schools that all employees shall comply with the requirements of the Family Educational Rights and Privacy Act (FERPA) and the Pupil Protection Rights Amendment (PPRA). The Superintendent shall implement procedures whereby every principal is directed to develop a means to notify, on an annual basis, students and parents, including non-English-speaking parents, of their rights under the FERPA and the PPRA, either by letter or through a student handbook distributed to each student in the school.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA) AND PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA) NOTICE TO PARENTS/GUARDIANS AND ELIGIBLE STUDENTS -

FERPA affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the

student's education records. These rights are:

(1) The right to inspect and review, within 45 days of a request, the education records of a student who is your child, or in the case of a student who is eighteen (18) or older, your own education records. Parents or eligible students should submit to the Superintendent a written request identifying the record(s) they wish to inspect. The Superintendent or designee will make arrangements for access and provide notice of such arrangements.

(2) The right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. To request the school district to amend a record, parents or eligible students should write to the school principal, specify the part of the record they want changed, and specify why it is inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. If the district decides not to amend the record, it will notify the parents or eligible students of the decision and inform them of their right to a hearing. Additional information regarding the hearing procedure will be provided with the notification of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information (PII) from the student's education records, except to the extent that FERPA and its implementing regulations authorize disclosure without consent. One exception that permits disclosure without consent is to school officials with legitimate educational interest. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including school nurses and school resource officers); a member of the Board of Education acting as a collective group; a person or company with whom the district has contracted to perform a specific task (such as attorney, auditor, medical consultant, therapist, or online educational services provider); a contractor, consultant, volunteer, or other party to whom the school district has outsourced services, such as electronic data storage; or a parent or student serving on an official committee (such as a disciplinary or grievance committee) or assisting another school official in performing his/her tasks. The District allows school officials to access only student records in which they have a legitimate educational interest. School officials remain under the district's control with regard to the use and maintenance of PII, which may be used only for the purpose for which disclosure was made, and cannot be released to other parties without authorization.

A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibility.

Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

(4) FERPA requires the school district, with certain exceptions, to obtain written consent prior to the disclosure of personally identifiable information from the student's education records. However, the district may disclose appropriate designated "directory information" without written consent, unless the parent or eligible student has advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the school to include this type of information from the student's education records in certain school publications, such as the annual yearbook, graduation or sports activity programs, and honor roll or other recognition lists.

The School District has designated the following information as directory information:

- (a) Student's name
- (b) Student's participation in official school activities and sports;
- (c) Weight and height of members of an athletic team;
- (d) Dates of attendance at schools within the district;
- (e) Honors and awards received during the time enrolled in district schools
- (f) Photograph; and
- (g) Grade level.

Unless you, as a parent/guardian or eligible student, request otherwise, this information may be disclosed to the public upon request. In addition, two federal laws require school systems receiving federal financial assistance to provide military recruiters, upon request, with students' names, addresses, and telephone numbers unless parents have advised the school system that they do not want their student's information disclosed without their prior written consent. You have the right to refuse to allow all or any part of the above information to be designated as directory information and to refuse to allow it to be disclosed to the public upon request without your prior written consent. If you wish to exercise this right, you must notify

the principal of the school at which the student is enrolled in writing within 5 days after officially enrolling in school or within 5 days of the date of the release of this notice.

(5) You are also notified that from time to time students may be photographed, video -taped, or interviewed by the news media at school or some school activity or event; unless you, as a parent/guardian object in writing to the principal to your student being photographed, videotaped or interviewed. You must notify the principal of your objection by the date specified above. The principal will take reasonable steps to control the media's access to students. However, your submission of a written objection does not constitute a guarantee that your student will not be interviewed in circumstances which are not within the knowledge or control of the principal.

(6) You have the right to file with the United States Department of Education a complaint concerning alleged failures by the school district to comply with the requirements of FERPA or the regulations promulgated thereunder. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202.
